New Boat Is Launched

Seattle, June 15—(Special)—“The new mail boat ‘Prince of Wales’ was launched from the shipyards at Eagle Harbor, Wash. last Saturday, June 13th. The new ship took the water like a bird and we expect to be on our way to Wrangell the latter part of June” signed W. J. Neill.

The foregoing is a telegram we received last Tuesday and speaks for itself. The ‘Prince of Wales’ is the new boat to take the place of the ‘Uncle Dan’ on the West Coast run and is one of the largest capacity gas boats ever built on the coast of her length, and in addition to making the run of the ‘Uncle Dan’ she will continue on to Ketchikan.

Olympic Restaurant Changes Hands

Owing to a mistake last week we left out the item of the Olympic Restaurant changing hands. Charlie Mochizuki buying out the interests of A. R. Hall, and has changed the name from the Olympic to the Wrangell Restaurant. Charlie is a first class restaurant man and knows his business from a to z and has made several improvements in his place of business, so you won't go wrong if you eat at the Wrangell Restaurant.

Big Time Coming 4th

The Committees on the Fourth of July sports has been busy the past week and we hope to be able to publish the list of events in our next issue. Manager Moore of the Tokeen Marble Works while in town last week stated that there were some 50 or more men at that place who wished to spend their Fourth in Wrangell. This Fourth promises to be the best yet and all the committees are working hard to that end.

306 Votes On Saloon Question

C. E. Webber and Earl West who were authorized by Judge Thomas to take the census of the town to get the view of the voters on the liquor question, have finished their job and turned in their report which has been forwarded to the District Judge at Juneau. The total number of voters that they registered was 306, of these 184 voted for the saloons and 74 against, 28 were not seen, and 20 would state neither way.

F. H. Gold was in town last Tuesday and reported that their trap belonging to Gold and Galligan near Lake Bay was lifted last Monday for the first time and 4300 Sockeyes were taken.

Issue Call For Convention

Valdez, June 15—(Special) The Territorial Convention of the Progressive Democrats has been called to meet in Valdez on July 30 for the purpose of making a complete organization throughout the Territory. An official call has been sent to all the Alaska Press. The Wilson Progressives are asked to hold primaries in every precinct in the Territory and elect delegates to attend the convention. The Valdez Hotel in this city will be thrown open to all attending the Convention. At the Convention a full legislative ticket will be named for each division in the territory and a delegate to congress. Delegate Wickersham is expected to be in Valdez for the convention.

Excursion rates are being arranged with the steamship companies and it is the purpose to have as many delegates as possible attend from every part of Alaska, so as to make it as thoroughly representative of the people as possible.

There having arisen some question as to whether the Fish Egg cannery would operate the coming season, we are authorized to announce that it will be operated with an output of from 40,000 to 50,000 cases. —Pacific Fisherman.

“The Dream” is the proper place to go when in Ketchikan.

Vedder Burns And Sinks

The river boat Vedder, which has been on the river for the past month caught fire on her last trip up and burned to the waters edge and sank. The Vedder left here last Saturday for Telegraph on her second trip and when about 20 miles up the river from Wrangell the fireman, R. J. Shaw, discovered that the ceiling was afire and he shouted to the engineer for a pail of water which was handed him and he threw it on the fire, apparently putting it out, but it had a larger start and when it was next noticed it was burning on the outside all around the smoke stack, every effort was made by the crew to put it out but of no avail, and rapidly gained headway. The Captain headed the boat for the shore and made fast, and all hands tried to save the ship. The fire spread in a very few minutes to all over the ship and the lines that held her to the shore burned off letting her go adrift, the crew in the life boat made lines fast to the burning ship and tried to drift her in a large sand bar about a half mile below but before she reached there the vessel sunk in about 15 feet of water. All that was saved from the vessel was a few tools and clothing, in value not to exceed \$100. The rescued party was picked up shortly after leaving the scene of the disaster by Fred Bronson and brought to Wrangell. J. C. Henley, engineer and part owner of the Vedder, stated that the vessel was insured for \$3000 which would not cover one fourth of the loss. The Vedder was practically a new vessel, and was used as a ferry steamer at Chitliwack, B. C. on the Fraser river, until the company was formed to operate her on the Stikine. She was brought to Wrangell and made one trip to Telegraph and was on her second when she caught fire and burned. She was a well equipped vessel, and carried a crew of five men, she carried no passengers the last trip. Mr. Henley and crew were passengers south on the last steamer and stated as he was leaving that the company would have another and larger steamer on the river next spring.

The old reliable fishing squad made a trip to Toms Creek last Sunday, according to information received McNurey caught the most fish and Gartley was still the lowest, while Patenaude and Joseph were ties for the other honor. One of the best yarns of the trip is that while Pat was fishing he was standing in the water and as it was very slippery and the basket was a getting heavy he had taken it off and set it up on the bank under a tree well pretty soon Pat got a bite and threw Mr. Fish back up in the tree where the line caught on the limbs and Mr. Fish dropped off as pretty as could be and landed head first right square through the hole in the top of the basket.

Excursion To Great Glacier

The Hudson Bay Company have made arrangements to run a grand excursion on their fine river steamer Port Simpson up to Great Glacier on the Stikine River next Sunday June 21. The steamer will leave the dock here at 8 a. m. sharp and will return about 8 p. m. giving about two hours at the Glacier for those who wish to get off on the ice and take pictures and otherwise enjoy the beautiful scenery. Lunch and dinner can be had aboard the steamer for 75 cents per meal if desired. The fare for the trip will be \$1.50 for the round trip children half fare and under five years free. This is a beautiful trip and one that you should not miss, the steamer has fine accommodations for 150 people and for a Sunday excursion the trip to Great Glacier can not be beat. But remember the boat leaves at 8 sharp so be on hand early.

Stop Waste Of Salmon

Ernest P. Walker, Deputy Worden Fisheries Service, is a passenger on the Dan this week for the West Coast where he goes in the interest of his Bureau to put a stop to the wasting of fish by the buyers over there. According to information received the buyers are taking no white salmon and no red salmon under 20 pound. This means that all small fish caught by the trollers are wasted as they cannot sell them even if they weigh 19 pounds. This matter was taken up with Dr. Jones last week during his visit here and he authorized Mr. Walker to notify the buyers that they must take all fish offered to them or none. This is a point gained for the trollers as the run this spring has seen many of the fish under twenty pounds and already this year thousands of pounds of bright red fish have been thrown away.

Minstrel Show On July 5th

Stop! Where are you going? I am going to the Sanitary Minstrel Company at the Skating Rink on Sunday, July 5, 1914, at 9 P. M. sharp. Why are you going there? Because I know I will enjoy a hearty laugh. Lets go, it costs only 25 cents.

A Clever Hoax That Was Perpetrated at Harvard University.

Richard Washburn Child, the novelist, when at Harvard university was the originator of a joke which has become perpetuated in the university. The Bookman describes the incident as follows:

"While an undergraduate at Harvard Mr. Child happened to be, among other things, one of the board of editors of the Lampoon. The Crimson, the Harvard undergraduate daily, had announced that it would print no edition on Memorial day, 1901. At Mr. Child's suggestion the Lampoon issued a fake number of the Crimson, delicately enough caricatured to deceive all but the most observant readers.

"The appearance of the college paper was accurately reproduced, even to certain typographical errors for which the Crimson had been notorious, but the contents were such that the whole Cambridge community was for a time in turmoil. Information that the janitor of one of the college laboratories had upset a jar of microbes and that all those who had been near the laboratory should report at once to the college doctor; that some of the crew squad had rowed himself out of his shell, but had reached shore without ill effects, and that the president and fellows of Harvard college had decided not to offer President McKinley an honorary degree was given with the utmost gravity.

"A statement in the fake that the Crimson was making more money than was warranted and that \$1.50 on all \$3 subscriptions would be returned that afternoon brought many freshmen to the Crimson office at the appointed time. A sign, hung in the night over the Crimson office, reiterated this announcement and was another part of the hoax. Its complete success was for long the talk of Cambridge and the forbidden subject of conversation in the Crimson sanctum."

Mills Violating Territorial Law

During our interview with Dr. E. Lester Jones, Deputy Commissioner of Fisheries, during his stay in Wrangell, he ask us to print the following extract from the Territorial Laws of Alaska, relating to the casting of sawdust, slabs and other waste into the waters of Alaska, which he stated is being violated by every sawmill in South-eastern Alaska excepting one. Dr. Jones stated as his reason, that the casting of sawdust into the waters is one of the most harmful things that can be done to the small fry, as they are sure to swim near the top of the water and if one of the small pieces of sawdust lodges on their gills it causes their death in a very short time as small fish are very tender. This law is being violated and it should be stopped at once and from the statement he made to us it must be stopped at once or the Bureau of Fisheries will take action against them.

Section 1. It shall be unlawful for the proprietor of any sawmill in this territory or any employee therein, or any other person, to cast sawdust, planer shavings or other lumber waste made by any lumbering or manufacturing concern, or to suffer or to permit such sawdust, shavings, or other lumber waste to be thrown or discharged in any manner into any of the streams entering into salt waters of this territory, or bays immediately adjacent to salmon streams, or to deposit the same where high water will take the same into any of the waters of this territory.

Sec. 2. Any person violating this act shall be guilty of a misdemeanor.

Approved, April 30, 1913.

Inspect New Stikine Trail

Last Thursday afternoon at 2:15 the gas boat Karen with about fifty persons aboard left for the new Stikine Trail where the officers of the Wrangell Chamber of Commerce made a trip over the entire length of the trail. The trail is being built by the Forestry Service under the supervision of W. G. Weigle. Starting at the Garnet Ledge the trail leads north along the beach, the first quarter of a mile of the trail is the worst part of all as it leads through a bad swamp but for a winter trail this will make no difference as the swamp will be frozen, after you leave the swamp, the trail leads through the woods on higher ground and comes back to the beach at Point Rothsey, where the camp is established for the men working on the trail, after leaving Pt. Rothsey the trail goes back in the woods more to higher ground and several steep climbs are in the next mile before you come back to the beach again, at the place where the trail strikes the beach the crew are working their way through a large cliff of rock, a blasting crew are rapidly cutting the cliff away so as to make the trail passable, after leaving the rock cliff which is some twenty-five feet through, the trail leads through some of the prettiest scenery of the whole country, the trail leading along the cliff with the Stikine River winding its way beneath, there is about a half mile of trail built from the rock cliff and several men are at work here clearing the way for the trail. The foreman Mr. S. S. Swenning deserves much credit for the way he has over come the many obstacles in the way of building a winter trail on the Stikine.

Fish Commis'er In Alaska

Dr. E. Lester Jones, Chief Deputy Commissioner of the Bureau of Fisheries arrived in Wrangell on the U. S. Fisheries boat, Osprey, last Saturday. Dr. Jones is a gentleman of very pleasing appearance, and has the distinction of being the first Commissioner of the Bureau to ever visit Alaska, or as he states this is the first time the Silver Fish has ever flown in Alaska, the silver fish on a blue field being the flag of the Commissioners and is flying on the Osprey. Dr. Jones will spend about four months in Alaska studying the fish and the fishing industry, and will make special investigations along all lines under his Bureau. Dr. Jones has with him a special photographer, Mr. Bennet, who will take pictures of the industry to be used for reference by the Bureau in Washington. In speaking of the future work of the Bureau in Alaska, Dr. Jones stated that they would increase their Bureau men greatly this summer, and that the Bureau has ask for an appropriation for 6 small gas boats, 1 large gas boat and an ocean going tug for use in the better protection of the fish in Alaska and that in all probabilities Wrangell will be made the headquarters for Alaska. In speaking of Wrangell Dr. Jones stated that he was very much impressed with the location and beauty of our city, and the only fault that he could find was the dirtiness of our bay and beach caused by dumping sawdust and other refuse into the water, he stated that this should stop as it was not only bad looking but very injurious to the health of the community, and asked us to print the Territorial law relating to this, which we are in another column.

New Contracts For Big Money

The new mail contracts recently let by the Postal Authorities for carrying mail to Alaska runs up into big figures. Contracts have been let to the Alaska S. S. Co. for the mail on the Seattle and Skagway route, and on the Seattle and Seward route, price on the former being \$21,000, and the latter contract \$81,000 per annum.

The Alaska Coast S. S. Company secured the mail contract for the Seattle and Kodiak route at \$61,000 per annum.

On the Seattle and Skagway route the Alaska S. S. Co. will operate two steamers carrying mail clerks and on the Seattle and Seward route will use, as at present, the Alameda, Northwestern and Mariposa. The Alaska Coast Co. will use the Admiral Evans and Sampson, but are not scheduled to call at this port.
